The Long-Term Investors Club was created in 2009 to bring together major long term institutions and assert their common identity, through various activities, going from academic research to the construction of appropriated financial services. Its four founding members are Caisse des Dépôts, Cassa Depositi e Prestiti, KfW Bankengruppe and the European Investment Bank.

FKI is a multifunctional association for domestic industries, which exists in the form of an incorporated body. The official name of the organization is the Federation of Korean Industries, which consists of Korea's major conglomerates and associated members. Founded in 1961, FKI has championed the principles of free enterprise to achieve wholesome development of the national economy. FKI stands at the forefront in the endeavor to build an advanced society in the 21st century by prioritizing stronger industrial competitiveness, and fully responding to the requirements of globalization. The main objectives of the organization are to help promote sound economic policies, and to internationalize the economy to further enhance the free market economic system and the development of the nation. In order to establish the objectives listed above, various domestic economic issues are addressed and analyzed, and extensive research is being done in order to find effective solutions. Our organization addresses the government on major economic issues and policies, helps promote cooperation with major international and foreign economic organizations, disseminate free market principles and assists corporations in promoting corporate community relations.
