

DIGITALISATION OF THE ECONOMY

Regional Outreach Events 2019

The OECD/G20 Inclusive Framework on BEPS has developed a *Programme of Work* which aims to provide consensus-based, long-term solutions to the tax challenges arising from the digitalisation of the economy by 2020.

It will explore:

- under a **first pillar**, potential solutions for determining the allocation of taxing rights (“nexus and profit allocation”),
- under a **second pillar**, the design of a system to ensure that MNEs pay a minimum level of tax on profits. This is intended to address remaining issues identified by the OECD/G20 BEPS Project.

SAVE THE DATE!

Building on the previous consultations on BEPS, a set of regional outreach events on digitalisation will be carried out in partnership with regional organisations and development banks.

2-4 July 2019	ADB workshop on tax and digitalisation in Asia – <i>Tokyo, Japan</i>
9 July 2019	Meeting of OECD Secretariat with ATAF Cross Border Taxation Technical Committee – <i>Pretoria, South-Africa</i>
