1-2 June 2010

OECD Headquarters, Paris, France

BIOGRAPHIES

WELCOME REMARKS

Ambassador Richard A. Boucher

Ambassador Richard A. Boucher was appointed Deputy Secretary-General of the OECD in November 5, 2009. Among his responsibilities, he will spearhead the Organization's enhanced engagement and accession processes.

Ambassador Boucher, a U.S. national, is a senior foreign policy executive who has managed world-wide teams, programs and strategies and brings extensive experience in emerging economies. Over his thirty-year career in foreign policy, he has consistently had challenging assignments and achieved the highest rank in the United States Foreign Service.

From 2006 to 2009, as Assistant Secretary of State for South and Central Asia, Ambassador Boucher was involved in high-level negotiations throughout the region, from Kazakhstan to India. Prior to this, he was Spokesman and Assistant Secretary for Public Affairs for five years, crafting the U.S. public approach on critical world issues for three Secretaries of State. In 1999, he served as the U.S. Senior Official for Asia-Pacific Economic Co-operation promoting more open trade and an improved investment climate. From 1993 to 1999, he served consecutive terms as the U.S. Ambassador to Cyprus and Consul General in Hong Kong.

Ambassador Boucher is fluent in French and Mandarin Chinese. He holds a BA in French and English Literature from Tufts University and undertook further studies in International Economics at George Washington University.

Ms. Carolyn Ervin

Carolyn H. Ervin is the OECD Director for Financial and Enterprise Affairs (DAF). Her Directorate helps governments to improve the domestic and global policies that affect business and markets. It works in the fields of anti corruption, corporate governance, competition law and policy, investment, financial markets, insurance, private pensions and private sector development.

Ms. Carolyn Ervin (Cont.)

OECD member governments are the principal clients, but the Directorate and its committees also have extensive relations with non-OECD countries that wish to improve their economies and become more integrated in the global economy. The Directorate and its committees also engage in extensive consultations with business, labour, professional communities and civil society in order to enrich their work and build constituencies for it.

During over twenty years at the OECD, Carolyn Ervin has held posts in several areas. She was director of the secretary-general's office from 2000 to 2005. As counselor in DAF in the 1990s she led the project to negotiate the OECD Anti-Bribery Convention and was a main drafter of the OECD Jobs Study. During the 1980s and 1990s she handled programme and budget issues in the secretary-general's office, and helped to set up the Centre for Co-operation with the Economies in Transition.

Prior to joining the OECD Carolyn Ervin spent six years in the United States diplomatic service.

Carolyn Ervin is a U.S. citizen. She has a B.A. and an M.A. in Economics from Stanford University. She is married and has one daughter.

TERRORISM IN 2010: AN OUTLOOK

Chair: Mr. Robert Muir-Wood

Robert Muir-Wood is the Chief Research Officer and an Executive Vice President of Risk Management Solutions. He has a 1st Class degree in Natural Sciences and a PhD in Earth Sciences both from Cambridge University and was a Junior Research Fellow at Trinity Hall, Cambridge. He has worked in the research, development and design of probabilistic catastrophe loss models since 1991 for a wide range of perils and territories and has been the technical lead on a number of catastrophe risk securitization transactions.

As head of research at RMS Robert has worked to explore new areas of risk modeling beyond natural catastrophe, including liability and fire. Having been booked on the United flight from Newark NJ to San Francisco on September 11th 2001 (but the third flight of the day not the first) he was at the centre of discussions around both how terrorist attacks could be modeled as well as how it is possible to establish a probabilistic framework for the consideration of terrorism risk, as first developed and released by RMS in 2002.

Author of six books, many scientific publications and numerous articles, he was the Lead Author on Insurance, Finance and Climate Change for the 2007 4th IPCC Assessment Report and is a member of the OECD High Level Advisory Board of the International Network on Financial Management of Large-Scale Catastrophes.

Keynote speaker: Mr. Jean-Louis Bruguière

Jean-Louis Bruguière was born in Tours (France) in 1943. After obtaining a Master's Degree in Public Law, in 1968 he successfully passed the national magistrates' examination. In 1973 he was appointed in Evreux as an investigating judge, a position he left in 1976 to take up similar duties in Paris. In 1995 he was appointed First Vice President in charge of coordinating the anti-terrorist section in Paris.

After being in charge of serious crime investigations, from 1981 onwards, following the abolition of the State Security Court he was assigned to cases relating to terrorism: Euro-terrorism with Action Directe (connected to the Red Brigades and the German RAF), domestic terrorism (Basque and Corsican) and international terrorism originating in the Middle East (terror attacks perpetrated by the Palestinian organizations of the "Refusal Front" (Abu Nidal, PFLP, Carlos) or ordered by Iran (CSPPA in 1986, assassination of Shapour Bakhtiar).

He was also entrusted with the investigation into the attack against the DC10 belonging to the airline UTA following the Lockerbie bombing (implication of Libyan agents).

Mr. Jean-Louis Bruguière (Cont.)

From 1994 onwards, he primarily dealt with all investigations relating to radical Islamism and in particular Al-Qaeda (hijacking of an Air France Airbus in 1994, attacks in 1995, dismantling of Al-Qaeda cells, Pakistani-Afghan networks, Ressay-Millennium Bomber network; investigation into the attacks of 11 September 2001; 2002 Djerba bombing; 2002 Karachi bomb attack in which several French employees of DCN were killed; Chechen networks linked with the networks of Abu Mussab al-Zarkawi; and more recently the SGPC networks which subsequently became “al-Qaeda in the Islamic Maghreb”). He also took charge of investigations into separatist organisations operating abroad (IRA, PKK and LTTE).

From 1995 and until May 2007 he lead and coordinated the National Judicial Anti-terrorist Division, which is made up of 8 specialized investigative magistrates with national jurisdiction.

He has also exercised other duties. He is an expert advisor on domestic security services to the Council of Europe, the Commission of the European Union as well as the United Nations (UNODC). In addition, he has also advised several Governments states on counter-terrorism, and participates in numerous conferences in France and abroad. Moreover, in November 2009 he published a book of memoirs and reflections on thirty years spent fighting major crime and terrorism, published by Robert Laffont and entitled “Ce que je n’ai pas pu dire” (“What I couldn’t say”).

In 2008 he was appointed by European Union as an “Eminent European Person” to the United-States to represent Europe to the US on financing Terrorism issue, in the framework of the “Terrorism Finance Tracking Programme/SWIFT”, which was set up by President Bush in the aftermath of 11 September and which the Treasury Department had been asked to implement.

Mr. Jean-Louis Bruguière is an Officer of the Legion of Honour and a Commander of the French National Merit. He has also been awarded the Silver Medal of the Spanish Guardia Civil and was the recipient of the Spanish Dialogo prize in 2007.

Mr. Paul Trushell

Paul Trushell is currently Director of the Australian Government’s Critical Infrastructure Program for Modelling and Analysis (CIPMA). CIPMA is a cutting edge capability managed by the Attorney-General’s Department with technical services provided by Geoscience Australia. CIPMA is a key foundation of the Australian Government’s business partnership with the owners and operators of critical infrastructure (CI), which is operated through the Trusted Information Sharing Network (TISN). The TISN is a highly successful non-regulatory mechanism through which a vast range of information is shared on CI, organisational resilience and the delivery of essential services. Paul joined CIPMA in early 2008 and was part of a small team that successfully secured funding from the incoming Government to move CIPMA from a pilot research project to an operational program.

CIPMA core business is to run scenarios on man-made and natural disasters to identify the impacts of these events. This information is provided to governments and business to inform their risk management activities.

Mr. Paul Trushell (Cont.)

In addition, CIPMA has engaged in a three year project with the Australian Reinsurance Pool Corporation (ARPC) to enhance their bomb blast loss estimation tool and to develop a chem/bio plume modelling and loss estimation capability. This project is a whole-of-government initiative involving Geoscience Australia, Defence Science and Technology Organisation, the Australian Federal Police and the Bureau of Meteorology.

Paul has worked for the Australian Government for over 15 years. He has held policy and program management positions in the Department of Primary Industries and Energy, Department of Agriculture, Fisheries and Forestry, the Department of Foreign Affairs and Trade and the Attorney-General's Department. Paul holds a Bachelor of Applied Economics from the University of Canberra and has undertaken some study on defence and strategic studies at the Australian National University.

Mr. Gordon Woo

Mr. Gordon Woo is a catastrophist, specializing in the mathematical modeling of catastrophe risks, natural and man-made. He is the chief architect of the RMS terrorism risk model, and has pioneered the methodology for probabilistic terrorism hazard assessment. Internationally recognized as a leading authority on quantifying terrorism risk, he has lectured to IAEA and NATO. For his work on terrorism risk, he was named by *Treasury & Risk* magazine as one of the 100 most influential people in finance. In 2003, he was involved as a risk analyst in Palestine-Israel peace process initiatives.

He graduated as the top mathematician of his year at Cambridge, completed his PhD as a Kennedy Scholar at MIT, and was a member of the Harvard Society of Fellows. He is listed in *Risk Who's Who*, and is the author of the book, *the mathematics of natural catastrophes*, published by Imperial College Press.

TERRORISM RISK INSURANCE MARKETS: WHERE DO WE STAND?

Chair: Mr. Paul Kleindorfer

Dr. Kleindorfer is Paul Dubrue Professor of Sustainable Development & Distinguished Research Professor in Technology and Operations Management at INSEAD. He is also the Anheuser-Busch Professor Emeritus of Management Science at the Wharton School of the University of Pennsylvania. Dr. Kleindorfer was a faculty member at Wharton from 1973 to 2006. He graduated with distinction (B.S.) from the U. S. Naval Academy in 1961. He studied on a Fulbright Fellowship in Mathematics at the University of Tübingen, Germany (1964/65), followed by doctoral studies at Carnegie Mellon University, from which he received his Ph.D. in 1970 in Systems and Communication Sciences at the Graduate School of Industrial Administration.

Before joining INSEAD in 2006, Dr. Kleindorfer held university appointments at Carnegie Mellon University (1968/9), Massachusetts Institute of Technology (1969/72), The Wharton School (1973 - 2006), and several universities and international research institutes, including the University of Frankfurt, INSEAD, Ulm University, IIASA and The Science Center (Berlin).

Dr. Kleindorfer has published over 25 books and many research papers in the areas of risk management, managerial economics and management science. His most recent book, *The Network Challenge*, co-authored with Jerry Wind (Wharton Publishing, 2009) examines global interdependencies arising from the network economy. Dr. Kleindorfer's current research is on risk management, with applications to supply management, pricing and investment in network industries, and sustainability issues related to climate change.

Mr. James Wrynn

James J. Wrynn was nominated by Governor David A. Paterson to be the 40th Superintendent of the New York State Insurance Department. He began serving as Superintendent on August 20, 2009.

Wrynn previously served as the Executive Director of the New York State Insurance Fund since April 22, 2009. He has 25 years experience as a trial attorney focusing in the areas of life, accident and health insurance, property and casualty insurance, general liability insurance, insurance coverage disputes, professional malpractice, and product liability.

Wrynn was a founding partner in the law firm of MacKay Wrynn & Brady, LLP, which specializes in the area of civil litigation and appellate practice, with strong emphasis on insurance law. He has an extensive legal background in insurance, counseling agents, brokers, risk retention groups and insurance companies in most lines of insurance and excess insurance, reinsurance, self-insurance and captive insurance. His experience includes knowledge of insurance, accounting and tax issues affecting entities doing business both on and offshore. Wrynn began his legal career in 1982 in the Manhattan office of McCormick, Dunne & Foley as a legal intern.

Mr. James Wrynn (Cont.)

Wrynn is admitted to the federal and state courts in New York and New Jersey and the Supreme Court of the United States. He has designations as both an Associate in Risk Management (ARM) and Associate in Captive Insurance (ACI).
